

RAMP PROFILE FOR CLEAN SYSTEM SHOE MATTING SYSTEM

RAMP PROFILE	USED WITH PROFILES	A [cm]
09/12	09 or 12	13
17/22	17 or 22	19

■ PRODUCT SPECIFICATION:

The ramp profile for the Clean System object wiper system is manufactured from 4 m long aluminium sections.

The profile elements are cut and bolted together using steel linear or angle fasteners.

The dimension A of the ramp profile depends on the height of the mat for which it is to be used (see table).
